In the main resorts in France your lift passes will be delivered to your accommodation by one of our reps the day before you are due to start skiing. You will not need to queue at the lift pass office, instead you can head straight out onto the slopes.

### Ski and Snowboard Hire

More and more people are discovering the benefits of saving time and money by booking their ski and snowboard online with us. We offer a wide selection of ski and snowboard products to suit your level and style so you can get the most out of your ski holiday

### Ski airport Transfers

Ski airport transfers are an essential part of your holiday and booking yours with Ski Holiday Extras could not be easier! Our experienced and dedicated specialized transfer team provide you with the best online prices from all the major Alpine airports including **Geneva, Grenoble and Chambéry.**

We want to take away all the stress of organizing your transfer and want you to know you are in safe hands. Last season (2009/10) we organized transfers for hundreds of customers, ALL of which were successfully carried out.

There are many advantages to taking a transfer rather than hiring a car. Firstly, with a transfer there is no hassle or queuing and filling out forms in the car hire agency. You do not have to worry about road directions, driving on the wrong side of the road, snow chains or having to dig your vehicle out of snow when it is time to leave.

If you are travelling on a Saturday, then it is better to book early as possible as during peak season it gets very busy and when capacity is nearly full prices can be affected.
